

CRITICAL DECISION MAKING FOR HIGH-LIABILITY TEAMS

A One-Day Masterclass in Reducing Decision Inertia

The Challenge

Ineffective decision making
High consequence environment
Limited time and information
Complex issues

The Solution

Confident Decision Making
Rational Risk Judgement
Effective Control Measures
Enhanced Situational Awareness

Workshop Overview

Format: 1-Day Intensive In-Person Workshop (On-site or Off-site)

Audience: Operational Directors, Site Managers, Crisis Teams, Shift Leads.

Capacity: Up to 12 delegates per session (to ensure coaching depth).

Key Learning Outcomes:

Understanding decision-making processes: The theory behind decision-making and the importance of risk versus benefit.

Combatting "Command Loneliness": How to hold the weight of responsibility without cracking under pressure.

Situational Awareness: How to obtain, understand and use information - and the factors that can affect this.

Human Factors: Understanding why your brain wants to take shortcuts (heuristics) and how to work with them.

Why GDV Consultants

GDV is led by experts with 60+ years of experience in the UK Fire & Rescue Service, serving as commanders in high-reliability organisations. We translate decades of emergency service command experience into actionable competency frameworks, training and executive coaching for the corporate world.

Architect of Staff Development Programmes – Assessor in critical leadership skills
Analysis of Competency Frameworks – Executive Coach and Mentor
Training Design and delivery

"We don't just tell you what to do. We rewire how you think under pressure."

Free Consultation Prior to Booking

GDV are dedicated to tailoring staff development to the organisation they serve.

Before we deliver a single hour of training, we invest the time to understand your operational landscape. We host a **45-minute** diagnostic session with your L&D or operations team to explore your specific risk profile and cultural challenges.

This ensures that the subsequent masterclass is fully tailored to your organisation's real-world needs, rather than delivered as a generic, off-the-shelf course.

Following the consultation, you can secure an introductory pilot session for your team. This allows you to stress-test our methodology and evaluate its impact firsthand.

Investment: £1,000 + VAT (*Introductory rate*)
